

# ANESTHESIA, NEUROLOGY & PAIN MANAGEMENT

## Coding & Reimbursement Conference 2007

Prepare yourself for  
**2008**  
NEW CODES!

**Reserve Your Spot Today!**

### Top 5 Reasons You Need To Attend This Information-Packed Event:

1. Prepare yourself for **2008 New Codes!** Straight from the source: Jan. 1st is the deadline for implementing the **New 2008 CPT Codes**. You'll get the changes that specifically affect you, straight from the experts.
2. Receive **information specific to your practice, created and presented just for YOU!** You don't have to sit through general information to get the tools that will affect how you do your job day in and day out.
3. Boost your revenue with **anesthesia and pain management coding exercises** and tactics you can put in to practice immediately!
4. Just a few of the **must-have topics** available at this information-packed event:

#### ANESTHESIA:

- Maximize Reimbursement For **Anesthesia Time**, Including Time During Cardiac Surgery...And More!
- Must-Have Expert Tips For **Monitored Anesthesia Care**...And Many More!

#### NEUROLOGY:

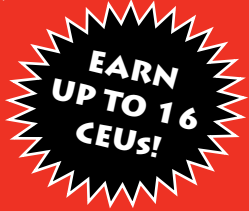

- Master **Migraine Coding** Without The Headaches And Maximize Pay-Up!
- Expert Tips To Get **PAID For IDET Procedures** Every Time...And Much More!

#### PAIN MANAGEMENT:

- Expert Tips To **Get PAID For IDET Procedures** Every Time!
- Pain Management Radiologic Services: **Fluoroscopy, CT, Epidurography, Ultrasound**...And Many More!

5. How-to coding tactics from the **Top Coding Professionals in the Nation!**

- |                                      |  |                              |
|--------------------------------------|--|------------------------------|
| ✓ Trish Barkauskas-Vollmer, CMM, CPC | ✓ Marvel J. Hammer, RN, BS, CPC, CCS-P, ACS-PM, CHCO | ✓ Joanne Mehmert, CPC        |
| ✓ Kelly Dennis, MBA, CPC, ACS-AP     | ✓ Betty A. Johnson, CPC, CCS-P, CCP, CIC             | ✓ Myriam Nieves, CPC, ASC-PM |
| ✓ Debbie Farmer, CPC, ACS-AN         | ✓ Leslie Johnson, CCS-P                              | ✓ And many more!             |
| ✓ Joan Gilhooley, MBA, CPC, CHCC     |  |                              |

### SPONSORS:

# Anesthesia, Neurology & Pain Management Conference Agenda

## Day 1 - Monday

## ANESTHESIA

9:00am-10:00am	<b>OB Coding Strategies That Deliver Bundles For 2008</b> <i>Presented by: Debbie Farmer, CPC, ACS-AN</i> Make sure your practice collects bundles in 2008 for relieving a new mom's pain. In this session, our expert will teach you how to select among the different ways to calculate an anesthesia provider's time, what to do when a labor turns into a C-section, how to get maximum ethical reimbursement for labor plus sterilization, the ins and outs of Duromorph coding. Plus, you'll finally know for sure how to code for stand-by, CRNAs, physician handoff during L&D, and much more. Don't be a "babe in the woods" when it comes to OB coding and billing. Plan to attend this session!
10:00am-11:00am	<b>Stay Alert For This Moderate Sedation Coding Session</b> <i>Presented by: Joanne Mehmert, CPC</i> Think you can't get paid for the moderate sedation codes CPT introduced in 2006? In this session, Joanne Mehmert, CPC, explains why at least one major payer has changed its tune and what you need to do to collect later this year. (Hint: UHC.) You'll also discover why smart practices are already reporting the codes on all their moderate sedation claims, even though all payers aren't yet coughing up. You'll stay wide awake as Mehmert teaches you to choose the correct combo from the 99413-99415 and 99148-99510 code sets, and reveals when you should NEVER bill for moderate sedation.
11:00am-11:15am	<b>Refreshment Break</b>
11:15am-12:15pm	<b>Qualifying Circumstances Coding, Physical Status, And Billing For Other Medical Services</b> <i>Presented by: Debbie Farmer, CPC, ACS-AN</i> There's no denying that anesthesia coding is different from other specialties. But dealing with the quirks doesn't have to put you in a quandary! Come learn the ins and outs of qualifying circumstances codes, physical status indicators and "extra" services such as line placements. By the time you leave you'll know when to bill what, how to do it correctly, thus increasing your 2008 bottom-line.
12:15pm-1:30pm	<b>Exhibits &amp; Lunch</b>
1:30pm-2:30pm	<b>"TIME OUT"</b> <i>Presented by: Debbie Farmer, CPC, ACS-AN</i> All you need to know about coding for the time the patient is "out." Our expert will cover topics such as start/stop and discontinuous time, relief time while medically directing, anesthesia time during cardiac surgery, and time when a nurse isn't available in PACU.
2:30pm-3:30pm	<b>Master Self-Auditing Techniques For 2008 And Reduce Compliance Risks</b> <i>Presented by: Debbie Farmer, CPC, ACS-AN</i> If you're like most anesthesia practices, there is hidden cash—and hidden compliance bombs—lurking in your claims. In this session, our expert will teach you self-auditing techniques you can use to recoup lost cash and reduce compliance risks the minute you return to the office.
3:45pm-4:45pm	<b>Heart-Stopping Cardiac Anesthesia Coding Tips</b> <i>Presented by: Debbie Farmer, CPC, ACS-AN</i> Yes. It's true. Your heart will skip a beat when you embrace these strategies for coding anesthesia for coronary artery bypass grafts [CABG] and transesophageal echocardiography [TEE]. Pump-up your revenue for 2008 by learning what diagnosis codes typically support medical necessity for TEE, and where some carriers differ. You'll also take home a slew of tools to help your anesthesiologists correctly document TEE. Finally, our expert will walk you through some tough cardiac anesthesia coding scenarios so that all those claims on your desk will be a breeze.
5:30pm-6:30pm	<b>Cocktail Reception</b>

## Day 2 - Tuesday

9:00am-10:00am	<b>2008 New Code Updates &amp; Hot Topics</b> <i>Presented by: Kelly Dennis, MBA, CPC, ACS-AP</i> Worried about which CPT code changes and additions will affect you starting Jan. 1? You don't have to. Get the expert skinny from a coding veteran during this information-packed session.
10:00am-11:00am	<b>Spinal Coding Secrets: Insider Tactics Revealed</b> <i>Presented by: To be announced</i> CPT 2007 added two new spinal anesthesia codes to your mix – 00625 and 00626. But have you been reporting them correctly in light of older codes 00620 and 00622? Whether your anesthesiologist uses one lung ventilation during the procedure is one clue to follow, but that's not all you need. Learn the whole story behind all four choices and strengthen your spinal coding.
11:00am-11:15am	<b>Refreshment Break</b>
11:15am-12:15pm	<b>Monitored Anesthesia Care</b> <i>Presented by: Kelly Dennis, MBA, CPC, ACS-AP</i> Conscious sedation, monitored anesthesia care, general anesthesia – what's the difference, and how do they fit together? Do you report MAC with QS or other modifiers? And when does a case cross the line from MAC to general anesthesia? Get answers to all these questions and more, and rest assured you're handling the nuances with ease.

**AAPC Approved For  
Up To 16 CEUs!**

REGISTER TODAY: MAIL the attached, completed registration form to:

The Coding Institute • Live Conference Division • 2272 Airport Road South • Naples, FL 34112

For fastest service: CALL 866-251-3060 - OR - WEB [www.codingconferences.com](http://www.codingconferences.com)

# Day 1 - Monday PAIN MANAGEMENT

9:00am-10:00am

## Take The UNKNOWN Out Of "UNLISTED"

*Presented by: Trish Bukauskas, CMM, CPC, CMSC, CMPE*

Arrrrgh. What do you know about that hardware block? If you've been coding lots of anesthesia procedures, chances are you haven't had to grapple much with the great UNKNOWN that is UNLISTED. And even seasoned pain management coders can become UNCOMFORTABLE with the UNLISTEDS. Find your comfort zone for 2008! We'll show you scenarios where "unlisted" is the best, most compliant choice for pain management procedures — even if there's an established code that "seems pretty close." You'll also walk away with 8 strategies for watertight documentation that will get even the toughest unlisteds paid, and you'll learn what to do in an appeal if you need to try again.

10:00am-11:00am

## Mid-Level Provider Mambo

*Presented by: Joan Gilhooley, MBA, CPC, CHCC*

Our expert presenter will tell you everything you need to know about: Physician/NPP shared services: How the "shared services" rules apply to E/M and procedure based services; "Incident to" services: Coding and billing compliantly for Medicare and other payers; Revenue maximization strategies for patient education and therapy management services in a pain management practice.

11:00am-11:15am

## Refreshment Break

11:15am-12:15pm

## Double-Check Your Bilateral Coding Expertise And Rake In The Cash For 2008

*Presented by: Myriam Nieves, CPC, ACS-PM*

If you're like many pain-management coders, even a few bilateral coding mistakes can slash some of your reimbursements. After this session, you'll understand what procedures you can code bilaterally and what procedures you can't, when to bill multiple units instead, and what formats the major payers require. Don't lose out on the cash your practice deserves for TPI, facet injection, and other common procedures.

12:15pm-1:30pm

## Exhibits & Lunch

1:30pm-2:30pm

## Secrets To Earning Diskogram Dollars: Get PAID What You Deserve In 2008

*Presented by: Marvel J. Hammer, RN, BS, CPC, CCS-P, ASC-PM, CHCO*

Dollars depend on documentation — especially when you're coding diskograms. Don't fall victim to letting viable dollars slip through the cracks! Learn how to match your physician's interpretations with injections to catch every reimbursement opportunity you're entitled to.

2:30pm-3:30pm

## Is IDET DOA

*Presented by: Marvel J. Hammer, RN, BS, CPC, CCS-P, ASC-PM, CHCO*

Admit it. We were all feeling a little giddy last year when CPT introduced the new codes for intradiscal electrothermal annuloplasty (IDET) procedures. But now that heady excitement is gone as some payers refuse to reimburse for 22526, +22527, 0062T and +0063T. Don't despair. We'll show you how to do everything you can to get paid for IDET. You'll master the physician "slang" terms for IDET so you can recognize it in the medical record. Plus, you'll learn why reporting fluoroscopic guidance triggers denials, when to obtain an ABN, and what to look for in your carrier's policies.

3:45pm-4:45pm

## Don't Lose Money On In-Office Drugs & Supplies

*Presented by: Trish Bukauskas, CMM, CPC, CMSC, CMPE*

Start 2008 pain-free! If your physician follows the trend of providing more pain management services in the office, that means extra reimbursement for the practice — if your coding's up to par. Get the scoop on which drugs and supplies you can report, how to correctly calculate medication amounts and other ways you can help your physician achieve optimal — but appropriate — reimbursement.

5:30pm-6:30pm

## Cocktail Reception

# Day 2 - Tuesday

9:00am-10:00am

## The ABCs of ASCs

*Presented by: Trish Bukauskas, CMM, CPC, CMSC, CMPE*

Revenue-impacting ASC code changes are almost here. Guarantee payment and compliance success by joining us for this intense session. Kick-start your year with important information and helpful hints on pain management coding for ASCs: Know how the proposed CMS changes for ASC will affect you? We'll show you; The surprising right way to code pain management...it's easier than you think; The biggest ASC coding mistakes you can make and how to avoid them; Killer tools for ASC coding - what you need in your reference arsenal and why.

10:00am-11:00am

## Pain Management Radiologic Services: Fluoroscopy, Epidurography, CT, Ultrasound

*Presented by: Myriam Nieves, CPC, ACS-PM*

Radiology tools aren't just for radiologists anymore — pain management specialists increasingly rely on them to help during their own procedures. If fluoroscopy coding has you floundering, let our expert shed some light on the subject. You'll see how your specialist's uses differ from standard radiology, which codes you can submit in 2008, and much more.

11:00am-11:15am

## Refreshment Break

11:15am-12:15pm

## Ganglions! Bursas! And More!

*Presented by: To be announced*

If nerve anatomy makes you feel as if you're not in Kansas anymore, this is the session for you. You'll become a wizard at discerning from the medical record where the provider has injected and you'll be on the yellow brick road to flawless 2008 coding and optimal reimbursement.

## Anesthesia and Pain Management Editorial Advisory Board

- Lee S. Broadston  
- Patrick Cafferty, PA-C, MPAS  
- Barbara J. Cobuzzi, MBA, CPC, CPC-H, CHBME  
- David Fugate, MS  
- Leisa T. Gonnella, MHA  
- Scott B. Groudine, MD

- Barbara J. Johnson, CPC, MPC  
- Cathy Klein, LPN, CPC  
- Janet McDiarmid, CMM, CPC, MPC  
- Ron Nelson, PA-C  
- Cindy Parman, CPC, CPC-H, RCC

- Franz Ritucci, MD, DABAM, FAEP  
- Lynn R. Rogers  
- Teresa Ruiz-Law  
- Susan L. Turney, MD, FACP  
- Linda R. Williams, CRNA, JD

## Day 1 - Monday

# NEUROLOGY

9:00am-10:00am

### Intraoperative Monitoring Crash Course...You'll Need More Than Your Stopwatch

This one's a must for neurology coders whose physicians care for ICU and stroke patients. You'll emerge from this session knowing what you should do when the IOM diagnosis code differs from the ICD-9 code for electrodiagnostic testing. Unravel when you can bill for IOM for two simultaneous surgical patients, and when remote monitoring is OK. Ace when to 'start the clock' and how to get the physicians to document time appropriately and what modifiers you need to get your claims paid.

10:00am-11:00am

### Pass The Functional Brain Mapping Coding Test With Flying Colors

Feeling a little dysfunctional when you use 96020 — CPT's 2007 code for functional mapping? It's time to get smart. Among other things, you'll master 1) what it is so you can sleuth it out from a doctor's note; 2) diagnoses that likely will support 96020 medical necessity, and where to look for more guidance in the future, and 3) what codes you should NEVER report with 96020 and why.

11:00am-11:15am

### Refreshment Break

1:15am-12:15pm

### Take The Ouch Out Of Chemodenervation Coding, Including Botox Coding Boot-Camp

Don't let chemodenervation coding mistakes paralyze your collection efforts. Let Neil A. Busis, MD, show you how to deal with multiple injection visits, how to persuade payers to reimburse for migraine diagnoses, and more.

12:15pm-1:30pm

### Lunch & Exhibits

1:30pm-2:30pm

### Need-To-Know Coding Moves For Needle Electromyography & Nerve Conduction Studies

Our expert will tell you all you need to know about 95860-95904. Discover how to correctly code mixed NCS, the clever—and compliant—move that will get you paid for an injection with an EMG, and how to get paid when the physician goes beyond CPT guidelines in Appendix J.

2:30pm-3:30pm

### Never-Fail Neurostim Coding: It's Easier Than You Think

Find out how to code correctly for neurostimulator placement, maintenance and monitoring. Build your diagnosis coding skills so you can avoid denials when your neurologist uses neurostim to treat chronic pain. You'll also understand what's involved in other neurostim treatments besides SCS so that you can code like a pro.

3:45pm-4:45pm

### Wake Up! Become An EEG Coding Pro

Our expert will make sure you have a handle on long-term monitoring, digital analysis, what is mandatory and what isn't. If you're not sure what to do about hyperventilation and photic stimulation, this is the session for you. You'll also learn how to decipher from documentation if—and when—an EEG crosses from routine to long-term.

5:30pm-6:30pm

### Cocktail Reception

## Day 2 - Tuesday

9:00am-10:00am

### Migraine Coding — Without The Headaches!

There's no reason to pop an Aspirin and a Diet Coke every time you have a migraine medical record on your desk. In this session, our expert will show you how to navigate the maze of ICD-9 options for migraines so you can select the correct code. Our expert presenter will also teach you what you need to document medical necessity for a Botox injection. And you'll discover how to choose the correct E/M level, and how to spot encounters that should be level-five. (Yeah. For migraines . . . really.)

10:00am-11:00am

### Coding Diabetic Neuropathy & Other Pain Syndromes...Don't Stop With 250.xx

Did you know that approximately \$100 billion US health care dollars per year involve diabetes and that half of diabetes patients have diabetic neuropathy. This session will teach you 3 steps you can follow to achieve a successful claim. And you'll master ICD-9 coding techniques that will keep your diabetic neuropathy claims free from denials.

11:00am-11:15am

### Refreshment Break

11:15am-12:15pm

### Build Up Your Nerve: Anatomy For The Neurology Coder

Learning about nerves can be an intimidating prospect, but will improve your coding tremendously. Get real-world knowledge to help you decipher different categories of nerves and put you on your way to grasping what happens when your neurologist treats trigeminal neuralgia, performs an occipital nerve block or completes other common procedures.

## Neurology Editorial Advisory Board

- ▶ Neil A. Busis, MD
- ▶ Laurie A. Castillo, CPC, CPC-H, CCS-P
- ▶ Barbara J. Cobuzzi, MBA, CPC, CPC-H, CHBME
- ▶ Bruce H. Cohen, MD, FAAN
- ▶ Steven W. Dibert, MD
- ▶ Anne M. Dunne, RN, MBA, CCM, MSCN
- ▶ Ian S. Easton, PhD, FACMPE
- ▶ Barry Haitoff, CHBME
- ▶ Janet McDiarmid, CMM, CPC, MPC
- ▶ Ron Nelson, PA-C
- ▶ Patricia M. Salmon
- ▶ Tiffany Schmidt, JD
- ▶ Susan L. Turney, MD, FACP

REGISTER TODAY: MAIL the attached, completed registration form to:

The Coding Institute • Live Conference Division • 2272 Airport Road South • Naples, FL 34112

For fastest service: CALL 866-251-3060 - OR - WEB [www.codingconferences.com](http://www.codingconferences.com)

# PRE-CONFERENCE AND POST-CONFERENCE WORKSHOP AGENDA

## Pre-Conference Workshops - Sunday, December 9<sup>th</sup> - 1:00 pm - 5:00 pm

### Pre-Conference Workshop I: 7 Rules Of Medical Direction: Become A Modifier Master And Prevent Denials In 2008

Presented by: Joanne Mehmert, CPC

You'll definitely want to catch Joanne Mehmert's tips for successful anesthesia coding and how to interpret 'grey-area' guidelines for your practice. You'll also become a MODIFIER MASTER as you learn the most important tools for preventing denials for anesthesia claims.

### Pre-Conference Workshop II: "Doc...About Your Documentation"

Presented by: Debbie Farmer, CPC, ACS-AN

Are the doctors in your office not exactly "McDreamy" when it comes to documentation? If their documentation is more like a "McNightmare," this session gives you all the tools you need to help them fix it. First, you'll learn how to audit existing medical records for documentation red flags, and how to communicate with doctors to get the results you need. You'll also learn when, how, and IF to use templates and other tools to train the physicians in your practice to produce the documentation of your dreams.

### Pre-Conference Workshop III: Bullet-Proof Your 2008 Consult Coding

Presented by: Betty A. Johnson, CPC, CCS-P, CCP, CIC

The good news about consults is that they bring in approximately 40 percent more than run-of-the-mill E/M. The bad news is that you could have spotless documentation for 99241 – 99255 and still lose every penny of consult reimbursement in an audit, thanks to CMS rules. Make 2008 your most profitable year yet! In this session, Betty will outline consult documentation rules and help you implement processes that get you the documentation you need from both the referring doctor and your own doctor. We'll also cover additional details like when you can — and can't — ask for a consult from a physician in the same group, how to spot "churning" patterns that will sink your practice in an audit, and why it's so important to 'return to sender.' You'll come out of this pre-conference session with clever strategies to earn consult cash — and still have spotless compliance.

## Post-Conference Workshops - Tuesday, December 11<sup>th</sup> - 12:30 pm - 4:30 pm

### Post-Conference Workshop I: Zzzzzzz Sleep Study Coding Course

Presented by: To be announced

If sleep study coding questions are keeping you up at night, you can rest easy if you take advantage of this sleep study coding workshop. You'll get the details about what actually happens in different kinds of sleep studies so you can choose correctly among 95805-95807 versus the 95808-95811 code sets. You'll also learn things like when you need a referral and when you simply need an E/M encounter from the physician who orders the study, how to properly report POS to prevent denials, and what modifiers to use when the study is discontinued. You'll leave this session with your eyes wide-open to correct sleep study coding that gets your practice the reimbursement of your dreams.

### Post-Conference Workshop II: All About 2008 Op Notes

Presented by: Leslie Johnson, CCS-P

The old mantra holds true for any specialty: if it's not documented, it didn't happen (at least from a coding perspective). But how do you make sense of those operative notes, especially when they need to dovetail with your anesthesiologist's notes? And how do you get access to the surgeon's information to be sure yours coincides? This session will teach you how to overcome obstacles, what to look for, what the details mean and when to rely on the surgical report versus the anesthesia report for your most accurate coding.

### Post-Conference Workshop III: Expanded Services—Without the Pain

Presented by: Marvel J. Hammer, RN, CPC, CCS-P, ACS-PM, CHCO

Are the doctors in your pain management practice looking to expand their services? This session will show you how to analyze whether the expansion will be worth the time and effort, how to garner reimbursement for cutting-edge procedures, how to market your new services and other practice management tips, and steps you can take to reduce your liability risk

**AAPC Approved For  
Up To 16 CEUs!**

REGISTER TODAY: MAIL the attached, completed registration form to:

The Coding Institute • Live Conference Division • 2272 Airport Road South • Naples, FL 34112

# NATIONALLY RECOGNIZED EXPERTS

**Trish Bukauskas, CMM, CPC, CMSC, CMPE**, has over 20 years in the medical field. She currently is the CEO of TB CONSULTING, a firm that specializes in education, consulting, medical billing, auditing, compliance and initial start up of medial offices and hospitals. She is a Certified Medical Manager (CMM) through the Professional Association of HealthCare Office Managers (PAHCOM), a Certified Professional Coder (CPC) with the American Academy of Professional Coders (AAPC), a Certified Multi-Specialty Coder (CMSC) with the Professional Association of HealthCare Specialists (PAHCS) and the American Health Information Management Association (AHIMA).

**Neil Busis, MD**, is Chief of the Division of Neurology, and Director of the Neurodiagnostic Laboratory at University of Pittsburgh Medical Center-Shadyside, Pittsburgh, PA. Dr. Busis is also clinical associate professor, Department of Neurology, at the University of Pittsburgh School of Medicine and President of Pittsburgh Neurology Group, Inc. Dr. Busis is a consultant on CPT coding, documentation, and reimbursement for neurological procedures. He serves as consulting editor for Neurology Coding Alert.

**Kelly Dennis, MBA, CPC, ACS-AP**, has more than 23 years experience in anesthesia billing. She received her Master of Business Administration degree, Summa Cum Laude from AIU University, November 2005. She became a certified coder with the American Academy of Professional Coders in 2001, a PMCC certified instructor in 2002, received a Certificate of Proficiency in Anesthesiology from the American Academy of Professional Coders, and is an Advanced Certified Coding Specialist in Anesthesia and Pain Management. In addition, Dennis serves as lead anesthesia advisor for the Board of Advanced Medical Coding.

**Debbie Farmer, CPC, ACS-AN**, is a consultant with Auditing for Compliance and Education (ACE), Leawood, Kan. Ms. Farmer has more than 20 years of experience with both physician and hospital billing, and is well versed in Medicare and Medicaid billing requirements. Before working for ACE, she was employed as a billing supervisor for a large anesthesia practice. She enjoys the challenge of anesthesia and pain auditing, and educating physicians and coders.

**Joan Gilhooley, MBA, CPC, CHCC**, is president and consultant with Medical Business Resources LLC, has 25+ years experience in health care. Since 1992, she's instructed physicians and coders in E/M coding, auditing and other coding and reimbursement. She's also the technical editor for Primary Care Coder's Pink Sheet and facilitator for the MGMA on-line course "Assessing and Improving Your Billing Office." She is involved in health care fraud litigation.

**Marvel J. Hammer, RN, BS, CPC, CCS-P, ASC-PM, CHCO**, is a coding and compliance consultant and principal of MJH Consulting. She provides documentation auditing, healthcare compliance evaluations and coding/account receivables assistance for her clients. Additionally, she has attained the qualifications of Advanced Coding Specialist – Pain Management and Certified Healthcare Compliance Officer. She is a registered nurse with over 25 years experience in a multitude of specialties. Her field of specialties includes Pain Management, Physical Medicine & Rehabilitation, Neurology, and Occupational Medicine.

**Betty A. Johnson, CPC, CCS-P, CCP, CIC**, is a healthcare consultant with over 19 years experience in physician coding, billing, and education. She is the president and CEO of CPC Solutions, Inc. She serves on the National Advisory Board of the American Academy of Professional Coders as the Member Relations Officer - East. She is also an Academy workshop presenter. She presents various coding and billing-related topics across the country. She is also a featured writer for the Academy's Coding Edge magazine. Betty holds a B.A. in Healthcare Administration. She focuses on coding and billing issues, fraud and abuse compliance, reimbursement issues, and PATH guidelines.

**Leslie Johnson, CCS-P**, is the Director for Research and Education as well as the Coding and Compliance Consultant for DR Management, LLC. She has been in the industry since 1992 and has served in various positions performing billing, coding and teaching for multiple specialties. Her expertise is extensive and includes optometry & ophthalmology, family practice & internal medicine, cardiology, anesthesia/pain management, general surgery, OB, radiology, and orthopedics. She has also been quoted in various publications such as Anesthesia & Pain Coding Alert, The Pink Sheets, The Answer Books for Anesthesia and Cardiology, and ICD-9 / CPT Coding Pro Online Publications.

**Joanne Mehmert, CPC**, has specialized in medical office management and reimbursement issues for the past 35 years. A Certified Operating Room Technician and a Certified Professional Coder, she brings "walk in your shoes" experience directly to physicians' staff as well as an understanding of the clinical aspects of the practice. Exceptionally qualified, Joanne relates to physicians from a side-by-side perspective. Her management and reimbursement skills in the medical office are complete. She is a regular speaker at the Anesthesia Answer Book Conferences sponsored by United Communications Group, Healthstream Education Courses, and the American Society of Interventional Pain Physicians.

**Myriam Nieves, CPC, ACS-PM**, is the president of Precision Medical Systems, Inc, a Medical Coding & Billing company in the South Florida area specializing in Pain Management. She is a Certified Professional Coder by the American Academy of Professional Coders (AAPC) and an Advanced Coding Specialist in Pain Management by the Board of Advanced Medical Coding (BAMC). Mrs. Nieves has over 7 years of experience in the healthcare industry. She currently sits on the organization's compliance committee, conducts physician and staff training, and provides a wide variety of other coding and consulting services.

## Confirmation & Cancellation Policy

Please notify us in writing 10 business days before the event start date if, for any reason, you should be unable to attend. A credit voucher equivalent to the amount you paid will then be issued or, if you prefer, a full refund less a \$100 non-refundable administrative fee will be given. For cancellations received fewer than 10 business days before the event start date no refunds or credits will be given. Your registration may be transferred to another individual at any time, but please notify us in writing. When registering, please indicate whether you qualify for a discount. No discounts can be combined. The Coding Institute does not accept responsibility for covering travel, accommodation or any other costs incurred by registrants should this event be cancelled for any reason. The event program content is subject to change without notice.
